Objective of Classes

To share the shepherds' 2029 Vision for Otter Creek with the church and inspire us to embody the good news of Jesus' Kingdom to Nashville as we move towards 2029, our church's 100th anniversary. By examining who we have been, who we are, and who we hope to be, this teaching series will establish a trajectory for Otter Creek to fully live into our Kingdom mission of being a family growing to be like Jesus through the next decade.

Hospitality

We are determined to love all people, not just those we already know but those we have not yet met; not just those with whom we are comfortable, but also those with whom we are not yet comfortable.

Entrepreneurship

We have a rich history in starting new ministries. We will leverage our past successes to launch bold new initiatives that will help people and create opportunities for us to introduce them to Jesus. We will be known as risk takers.

VISION

Unity in the Midst of Diversity

We value diverse opinions about the Bible and encourage civility when we disagree about the meaning of scripture. We will build on our theological diversity and pursue ways for our church family and our leadership to grow in ethnic, economic, racial, and gender diversity for the sake of being able to relate to all who seek Jesus. Our vision says we are a church family that seeks relationship with everyone in our community.

VISION

Intentional Evangelism

We will be intentional about connecting with non-believers concerning our passion for Jesus. We will be creative in this endeavor as we teach, live, and demonstrate the power of Jesus in an increasingly secular American context. And we will celebrate when non-believers become Jesus people. Our past evangelism efforts have lacked intentionality. We desire to change this.
